Mr. Huckleberry asks for a raise during one of the most difficult times in our history. We have people out of work for months; the lines at the food bank are long and steady; people cannot pay their rent, utilities, or put food on the table.

The county must pay for the COVID vaccine in advance in order to get it to the people. The numbers of people coming down with the COVID virus and dying from it are staggering. And yet Mr. Huckleberry asks for a raise.

He is the highest paid employee in Pima County. I am not sure he performs to the level of what he is receiving as a salary currently. His salary is far greater than the majority of people in this community. Many of the working class of this county will not see this much salary over a ten-year span. Does he really deserve such an increase in salary.

What an insult to the community, to ask for more money. The board of supervisors should stand firm and reject his request for an increase in salary. The board needs to show the electors, those who put them on the board, that their voice is heard and Mr. Huckleberry should not get a raise.
