RE: Item for February 16 Addendum

DATED: February 6, 2021

Julie, please add the following item to the addendum for the Board meeting on February 16:

Discussion/Action: A measure directing the County Administrator and staff, working within the parameters outlined in Board Policy D22.12 (General Fund Capital Improvement Fund Pay-As-You-Go Program), to prepare options for the Board to consider that would result in all roads in unincorporated Pima County attaining an average Pavement Condition Index of 80 sooner than the original goal of that standard being achieved by 2030. Multiple options should be prepared based on this goal being achieved in either 2026, 2027, or 2028.
