Dear Pima County Board of Supervisors,
I support significant multi-year investment by Pima County in scholarships for high quality early childhood education. Your investment in children's development into healthy adults, families' stability, and will lead to Pima County's economic recovery and future.
Thank you for your leadership!

Board of Supervisors,

Our Family Services supports a significant multi-year investment by Pima County in scholarships for high quality early childhood education. The lack of affordable, accessible, and high quality early childhood education has been identified, year after year, as a significant barrier for the families in which we serve, those families who are experiencing homelessness and are working hard to reach financial stability. This support will mean so much to these families, removing a barrier and a significant stressor, allowing the parents to focus on work and their own education pursuits.

Thank you for your leadership on this issue.

Sincerely,
Beth

Hello,

I was gratified and, actually, surprised that most of the Board voted to consider scholarships for high-quality pre-schools. This is so very important, but it is a long-term investment, not a resurfaced road that you can point to. We must assure that all children can enter kindergarten with the tools to succeed in their education.

I hope you will advance this crucial investment in children's futures by voting for the budget item in this year's vote on May 4.

Sincerely,

Paige Hamner

Children deserve quality pre-schools. What possible downside is there to funding it properly? None that I can think of.

Thank you for your leadership in Preschool scholarships. I run a preschool for children in poverty. The need is immense and it will have incredible return on investment for our community in the future. All our human potential to make a strong community is in these children. Please vote YES. Put funds in the hands of parents NOT centers.

Dear Pima County Board of Supervisors,

I urge you to adopt the measure allocating considerable funding for high quality early childhood care scholarships for lower income preschool aged children.

Children's development is most rapid during ages birth to 5 and therefore considerably impacted by robust and high quality developmental and social/emotional learning opportunities. Quality care and Intervention during this time can remarkably increase academic preparedness, reduce later grade retention, and diminish the need for remedial and special education services due to developmental and behavioral problems in our K-12 public schools.

I commend you for your leadership and consideration to providing some of our youngest children the real opportunity to break the cycle of poverty and to later become more productive and well-adjusted citizens of our county.

Respectfully,

Teri McClemons, Ed.S.
