PIMA COUNTY SHERIFF'S DEPARTMENT

Mark D. Napier, Sheriff

M E M O R A N D U M

Date: March 22, 2021
To: Lieutenant J. Brady, Commander, NSIS
From: Lieutenant P. Hilliker, Covering Supervisor, BIU
Subject: Request to Purchase: Eotech PVS-31 Nightvision

Problem:

The Border Interdiction Unit (BIU), Canine Unit, and Pima Regional SWAT Team (SWAT) do not have updated capabilities to track, arrest, deter, or intercept suspects involved with border related transnational crimes during dangerous, uncertain, and rapidly evolving nighttime operations.

Solution:

Allow and purchase twenty (20) Eotech PVS-31 White Phosphor Auto Gated Night Vision Binoculars for the departments Canine Unit, SWAT Team, and BIU. These night vision systems will be used by members of the units to increase its ability to detect, deter, and intercept narcotic, weapon, and currency smuggling.

Justification:

The Mission of the Pima County Sheriff's Department Border Interdiction Unit is to concentrate its efforts in highway interdiction and metro/rural deployments to detect and intercept narcotics, US currency and human smuggling. The Border Interdiction Unit conducts highway interdiction on all roadways providing a nexus with the border, provides uniform support for Narcotic and Special Investigations Section operations, utilizes both currency and narcotic detection canines as part of its interdiction efforts, provides additional support for the Patrol Division as needed, and provides uniform support for other Local, State, and Federal Agencies.

To assist in our mission statement, there are available tools and equipment that can increase our probability of success and allow us a safer venue for the deputies and the public, especially when it pertains to nighttime operations. One of these tools is the Eotech PVS-31 White Phosphor Auto Gated Night Vision Binoculars.

Canine and SWAT assist the Border Interdiction Unit in apprehending narcotics and weapons smugglers and other suspect's involved in transnational crimes. Canine is routinely requested during traffic stops and when searching for suspects who flee from contact or arrest. SWAT assists with search warrants and can be requested to search in both rural and urban environments. Suspects that have resisted and fled from arrest when involved with smuggling crimes, routinely possess firearms either on them or located in the vehicle. The updated capabilities with the Eotech PVS-31 binocular compared to the old PVS-13 monocular we currently have makes it a necessary and invaluable tool when needed and used during night time

operations. It is easier to use and the clarity makes it easier to identify individuals and ensures threat identification and discrimination.

The system can be used in a handheld capacity and will come with a G24 mount that will affix to the current attachments the Canine Unit, SWAT Team, and BIU have on their helmets. The night vision will be dispersed between the three units; Ten (10) will be supplied to the SWAT Team, eight (8) to the Canine Unit, and two (2) to BIU. This is a reasonable and measured distribution of assets to units who assist BIU and would respond during high risk apprehensions regarding transnational based crimes during nighttime operations.

Recommendation:

I recommend we purchase twenty (20) Eotech PVS-31 BNVD Kit White Phosphor Auto Gated Night Vision with G24 mount to increase the Border Interdictions Unit effectiveness during border related interdiction, searches, apprehension, and investigations.

With the package Eotech has put together for the Pima County Sheriff's Department (quote attached) through Diamondback Police Supply Company, the twenty (20) systems will cost **\$235,000.00 + tax.**

Request:

I am requesting that the Department purchase the Eotech BNVD Kit White Phosphor Auto Gated Night Vision with G24 Mount through GIITEM Grant Fund:

FY20/21 AZDPS GIITEM GRANT
