Dear Pima County Supervisors,

I am writing to support increasing funding for JobPath. I was a participant in 2017 and 2018 and they were a tremendous help with me completing my nursing program. They provided assistance with gas cards for traveling to the different clinical sites, school supplies, food, personal hygiene items, and reimbursed me for school-related costs like the TB shot and Castlebranch. Thank you very much for your support for JobPath and students like me who was a single parent at the time to create a better future for myself and family. Please consider increasing funding to JobPath continue helping others.

Sincerely,

Wendi Wynn

Dear Pima County Supervisors,

I am writing in support of increasing funding for JobPath. I am currently a JobPath participant, and JobPath is helping me finish my program! I can assure you that without the jobpath program 50-60% of the students would not be or would not finish the program. Jobpath helps in so many ways not only financially. They offer workshops, personal help, and any type of issue that can put your career in jeopardy they can help with. Im not only asking you to continue funding this program, i am also asking to increase the funding. It is not money thrown away, most of the students that graduate from here get a job in pima county which in return pay taxes and money can come back into the Jobpath programs, think of it as a long term investment if you will. Thank you for taking the time to read this email.

I am writing to advocate for additional support for JobPath to increase and sustain support for so many adults who have been displaced from the workforce or are trying to gain marketable skills and education to improve their families lives.

This is the kind of investment of taxpayer dollars that pays real dividends to the individuals and families who are served, as well as our community. 90% of JobPath students graduate and earn substantially more income afterwards, contributing to the tax base and avoiding the additional costs of safety net services.

Sincerely,

Judith C Keagy
