I request that this email be read into the record by the clerk during your meeting on 9/10/21, 101 N Stone Ave. .

With respect to the US Constitution in particular, let it be clarified that the "Freedom of Religion" means absolutely nothing if it does not incorporate all Spiritual Faiths of Practice, not only just those sanctioned by an official church. For example, Fuck the so-called Covid vaccine (sorry for the profanity, but there is simply no stronger word to emphasize NO); if it is not "the mark of the beast" directly, it is certainly an essential part of it. And I declare, as it already goes without saying due to our Natural Rights of Bodily Autonomy, that everyone is naturally exempt who simply says "No."

The fact that you think you have the right to even consider doing such a thing, just shows how self-righteous and corrupt you truly are. Go Fuck yourself.

God Bless Humanity,
the general public

It has come to my attention that the county representatives will be voting on making the covid gene therapy shot mandatory for all healthcare workers and county employees. I implore you to vote NO on this! This is a vote against our God given right to bodily autonomy, our civil right to choice and our Constitutional rights. I will be watching closely how you vote today.

Respectfully
