Hello,

I am a nurse working here in Tucson. Yesterday we were short on nurses, just from a few having unexpected time off. Our patients were affected by this, having to wait unusually long amounts of time before being seen. I cannot even imagine the catastrophe, if the covid injections were mandated, because we would lose an alarming amount of nurses, not to mention the countless lives that WILL be affected, some lives completely lost, by taking these injections. Many are lead to believe they are not a big deal because the SHORT TERM effects aren't so bad for some but they're not realizing their GENETIC MAKEUP is being permanently altered. Yes, permanently altered. It's not like some kind of bad medicine that will eventually wear off. Your body will be FOREVER changed in how it reacts to ALL viruses, not just covid. There have been many cases of vaccinated folks' blood clotting, causing strokes and heart attacks but only time will tell what the horrifying LONG TERM side effects will be. People are being blinded by watching mainstream media. If these shots were good thing, very few would be against it. But we are the front line workers, educated in medicine and actually care about our patients. We are seeing firsthand what is NOT being reported on the news. We see the patients who are complaining of side effects long after taking the shots, many of them asking when they will get their strength back, when their muscles and joints will stop aching. Patients are asking why so many people are getting so sick from covid if they took the shots. These numbers are NOT being reported! Please hear me, the only cases being counted are those of the unvaccinated. Please see there is something very, very evil happening to our country. If these shots are mandated, the government will continue to strip YOU of your freedom, injecting whatever else can make them a buck and continue to CONTROL you, take away your voice, all at the expense of the victim's health. We have to protect the children and everybody else's future now! These shots are not like typical vaccines you have seen in the past. They don't even qualify as being labeled a vaccine. Injecting people with an EXPERIMENTAL GENE ALTERING THERAPY is not the answer for us! It is the answer for them! There never would have even been a pandemic declared if they had not lied about the numbers to begin with. We saw case after case, death after death that were being labeled as covid when they should have been labeled as flu, pneumonia, kidney failure, heart failure, and a plethora of other reasons why these folks were sick or died. Illness and death is nothing new to nurses. What the government has done is to simply re-label the cause of death in order to get people believing their narrative. We see the lies! Do you see how overboard the government has gone with this thing? When did they care enough to offer free insulin for diabetic patients? God has given us an immune system for a reason. Please see the evil and hear the stories from WE THE PEOPLE, not just what is on the nightly news. Our country is under attack but the resistance starts with YOU to see what is really going on and stand up and fight for our rights, our medical freedom, all of our constitutional rights that have kept our country free. Please help stop the mandates!!! Stand up and do the right thing. You have been put in this position to do the right thing. Please help us all. God bless you.

CAUTION: This message and sender come from outside Pima County. If you did not expect this message, proceed with caution. Verify the sender's identity before performing any action, such as clicking on a link or opening an attachment.

Matt Heinz!

How dare you try and force healthcare workers to take an experimental vaccine! YOU CANNOT MANDATE your wishes upon other people's bodies. As American's we have the GOD GIVEN right to choose for ourselves. I understand in your morally superior mind that you think it's okay to force an experimental, emergency ONLY vaccine on human beings, but it is clear that there is no morality in FORCING people to put something into their body when they could die from it. YOU SHOULD RESIGN! Your ethics do not serve the greater good! They only serve your flip flopping, Fauci, indoctrination (pun intended) and political agenda. Morally, you are bankrupt, believing abortion is woman's right, but vaccines should be forced because our political class & BIG PHARMA want to profit off of our lives and deaths. YOU ARE A CORRUPT politician and nothing more! RESIGN!

Hi

I am writing to you requesting you send an urgent message to the Pima County Board members regarding the meeting on 8/16/2021

My name is Mandy and I am a nurse practitioner. I have spent my entire nursing career in Tucson. I have been an RN for over 13 years. I want you to know that the community is aware that Matt Heinz wants to require the covid injection for ALL healthcare workers in Pima County. The group of healthcare workers that are against this is only getting bigger by the day. This is a MASSIVE violation of our constitutional rights. As you think about whether to vote for this, please be aware that this growing group of healthcare workers is prepared to WALK away from their jobs. The hospitals are already desperately understaffed and this will only make that worse. Your constituents are the ones who will be affected. The wait times for ER, urgent care and even getting in with their PCPs will only be longer than it is now. This will be detrimental to the healthcare system. The percentage of healthcare workers who have chosen not to take this is already more than the ones who have chosen to take it. We are entering into the busiest time of year with influenza, colds, snowbirds returning and will have scheduled procedures etc, and the healthcare system CANNOT handle losing staff during this time. If you choose to mandate this, the community will know that YOU voted it in and that all of their gaps in healthcare are because of YOU. VOTE AGAINST THIS MANDATE! We are NOT going anywhere. We will NOT back down. Vote NO on this mandate. And covid is NOT spread by healthcare workers. From 3/2020-6/2020, 253 patients were traced that had exposure to covid from healthcare workers and only ONE person contracted covid from that.

<https://academic.oup.com/cid/advance-article/doi/10.1093/cid/ciaa1269/5898497?fbclid=IwAR0JWb3NPGGAIkBwxCSYG0ZSJmtzKHBaZ6sc0E4zL-ctkcRm6cFmtmlW2Yg>

I also wonder how this will affect the revenue for Tucson if you penalize them for not getting this injection for themselves and staff. As a small business owner myself, I know I will go elsewhere.

Thank you
Mandy DeMeritt FNP-C

Subject: Monday 8/16 Healthcare workers vaccine mandate

CAUTION: This message and sender come from outside Pima County. If you did not expect this message, proceed with caution. Verify the sender's identity before performing any action, such as clicking on a link or opening an attachment.

Good evening,

I have heard that on Monday 8/16/21 there are plans to vote on a mandate for vaccination of our healthcare community. First of all I ask if the mandate for Pima County in general was voted down, why is this different? At this point many of our healthcare workers have either had COVID-19 or gotten the vaccine. To ostracize those who do not want the vaccine will devastate an already suffering healthcare system. I myself am a member of the healthcare system in a local hospital. There is NEVER enough staff, no matter what your department. From food services, environmental services, pharmacy, nursing, we are all hurting. We cannot hire enough people. What is worse I ask you, for safety, a hospital that is severely short staffed or a hospital that has 30-40% unvaccinated employees, who more than likely have natural immunity? We are seeing the immunizations wear off. We are seeing the immunized get infected. Why then would someone want to inject an experimental "vaccine" into themselves when if healthy they are highly likely to survive, OR they might already have immunity. ENOUGH is ENOUGH. We cannot continue to be dictated to when it is clear that even those at the very top of the CDC have no clue as to what to do. Harvard Epidemiologist Martin Kulldorff agrees. He states that this is "the biggest public health fiasco in history," "There's no public health reasons for this, so this is just politics," and that "those who are pushing these vaccine mandates and vaccine passports...they're doing so much more damage to vaccine confidence than anybody else,".

I beg that you consider what healthcare workers have already gone through over the last year and a half. We have already lost a great number of workers due to online schooling and the stress associated with working in the COVID environment that was created. IF we mandate this vaccine I guarantee that not only will you lose more that will NEVER return due to their privacy and freedoms being violated, but you will also lose a significant amount more due to the undue stress placed upon them due to lack of staffing.

Sincerely,
Caroline Sepp

I am a health worker of 20 years. I am just one of many who OPPOSE THE FORCED VACCINATION ON US. My body, my choice . No employer has dominion over MY BODY. Choice, is what I advocate for. Informed consent is something that is part of healthcare for our patients as it should be for employees. Take a vaccine or loose your job is not informed consent. Also, there are no alternatives being offered. No possible side effects mentioned and no listing of ingredients. And God forbid a severe reaction which there is no compensation for, why is that? We are the governors of OUR BODIES. We do not tell patients we will not treat them based on the choices they make in respect to what they put in their bodies do we? Healthcare worker's employment should not be based on what we choose not to put in our body! My body, my choice. Freedom to choose what we put in it or not put in it.

Subject: URGENT: STOP THE HEALTHCARE WORKER MANDATES PLEASE READ ALOUD DURING MEETING

CAUTION: This message and sender come from outside Pima County. If you did not expect this message, proceed with caution. Verify the sender's identity before performing any action, such as clicking on a link or opening an attachment.

Attention Pima County Board of Supervisors-
PLEASE READ ALOUD DURING BOARD MEETING

I have spent 12 YEARS (7 in the ER) serving my community through my work as a nurse. To have Matt Heinz sit there and call me a "Typhoid Mary" and imply that I am such a danger to the patients I faithfully serve is disgusting. Having an "MD" Attached to his name does not mean he gets to tell me if I have the right to choose what does and does not go into my body. Caring for the sick and disabled does NOT forfeit my right to bodily autonomy. What happened to informed consent? Are you going to willfully ignore the countless adverse reactions and deaths related to the vaccine reported to VAERS as it is proclaimed that "efficacy and safety is unmatched"?

Where was the board speaking out when we lacked proper PPE at the beginning of the pandemic? When we were reusing masks for weeks at a time and denied the option to wear N95's until the hospitals deemed it necessary. Where was your voice when we were denied Covid tests after exposure to Covid patients simply because we "didn't have a fever"? Were you concerned about OUR safety? Where was your voice when every year BEFORE Covid we had full ER's and ran out of beds almost daily from November to April? Where was your voice in previous years pre-Covid when we were holding ICU patients in the ER due to lack of beds and lining the hallways because we did not have enough beds to serve the community? I will not allow Matt Heinz to fear and guilt us into submission.

Where is your evidence of hospital acquired Covid from healthcare workers to their patients? My husband and I have both worked through this entire pandemic face to face with Covid patients and have yet to be infected with Covid. How can that be, you ask? We have this beautiful thing God created called our immune system. Why aren't you telling the public to lose weight, eat healthy and take control of their own health rather than encouraging them to push others to get vaccinated so their vaccination can work better. If masks work, why do we need vaccinations?

IF the Covid Vaccine has "efficacy and safety that is unmatched" why do you need to worry about MY vaccine status? Are we going to ignore the studies and CDC reports proving the vaccinated can still transmit the disease? Please tell me why I am more of a risk than a vaccinated healthcare worker. Do I not have the ability to weigh the risks and benefits and come to a decision that is best for ME? Are we not living in America anymore? Are you mandating that people be ordered to stop doing drugs, stop smoking and stop drinking alcohol? Does "Doctor" Matt Heinz proclaim that all his patients who don't comply with his recommendations are subject to "consequences for non compliance"? What makes you think as a Pima County board member you can overthrow my constitutional rights while hiding behind the guise of a pandemic? Do my rights only apply when

you say they do? What do you think comes next? Are you not going to allow unvaccinated patients to receive care?

I urge you to back down and vote no on mandates for healthcare workers across Pima County. IF you care about the community and are so concerned for them you will not continue forward with this mandate. If we are in such a state of "emergency" why would you be willing to risk losing countless SKILLED healthcare workers. A simple search yields 1,100+ positions already listed between Northwest hospital, Carondelet, TMC and Banner in Tucson alone. What do you think will happen if you force countless professionals out of their careers with this mandate? Do you think those who are vaccinated will be able to last long when they lose half of their colleagues under this mandate? Those who wanted the vaccine had their chance, those who haven't gotten it likely won't and the more you push and attempt to control what we do with our bodies the more we will resist you because we know our rights. It is not the job of the government or any of you five members to tell private businesses what they must make their employees do.

Sincerely,
-Angela, RN, BSN

Hello,

I am writing as a member of the community urging you to stop this unwise decision- forcing every healthcare worker to get vaccinated is completely illegal. This vaccine is NOT FDA approved, it is an emergency use authorization only. You CANNOT legally mandate healthcare workers to receive an experimental vaccine. You will be flooded with lawsuits from people who experience side effects for forcing this experimental vaccine. This is a HUGE violation of the "do no harm" philosophy in medicine. Each person has their own medical history and some are more prone to side effects. You CANNOT mandate vaccines across the board for an entire population. Stop this idiotic vote immediately.

Dear Pima, county board of supervisors,
That title does not give you or any health department officials the right to try to, pass a law saying that all must vaccinate
How about if it would be ordered by the Governor that
Only Pima county board of supervisors be taken into custody and giving psychiatric evaluations And re-education?
Your obviously scared of getting covid dieing and going to Hell your uneducated,
Let me Educate you and your staff

Medical professionals around the country are becoming frantic, sounding the alarm on the dangers of the COVID jabs, while simultaneously imploring the world to save them—our frontline heroes—from forced shots

Read on to learn what you can do to stand with America's heroes by joining #WalkOutWednesday, August 11.

Liberty Counsel is defending the rights of individuals desperately trying to avoid forced injections. We need your help to support the legal fight for freedom. Thanks to our Challenge Grant, YOUR impact will be DOUBLED! Select here or the button below to FUND THE FIGHT FOR FREEDOM.
Nurses are at the heart of the American health care system. These dedicated professionals put their lives at risk every day to care for our injured and ill. But now, their lives and livelihoods are on the line due to Joe Biden's insane push for COVID shot mandates.

Danielle, a frontline nurse who wrote us from North Carolina, is asking for legal help to void her employer's new mandatory shot policy. "I'm a nurse that belongs to [a] union that has totally blindsided us. We had no idea this would or could happen."

Betty has been a nurse for over 30 years, but now she will be forced to retire from the job she loves if she does not take the jab.

NO ONE SHOULD BE FORCED TO TAKE THESE SHOTS! Liberty Counsel is representing the doctors, nurses and medical personnel at one of the country's largest hospital systems with over 23,000 employees. We have direct knowledge that more than 80% of the staff do not want the shots, and of those, the vast majority are African American and Hispanic. The African American community has a history of suffering adverse reactions from prior vaccines.

We are defending their LEGAL RIGHT to REFUSE the SHOT. I will update you on that case's progress as soon as I am able.

Doctors, nurses and health care workers have treated patients injured from the COVID shots. They worked through COVID without the shots. They must not be forced to take them .

To: Duane <[REDACTED]>

A New Mexico resident we'll call "Ella" opted to get the COVID shot—although reluctantly. Ella, who has a pre-med degree, is a postmenopausal married woman with underlying health issues.

Still, she thought the COVID shot would help more than hurt. Thinking she had no options, Ella headed to Texas to get her first Moderna shot.

She had already had a serious case of COVID and, as an asthmatic, got through it by using Albuterol five times a day. What happened next should have given her pause, but ... please read more of Ella's story below.

*We need your help to support the legal fight for freedom. Thanks to a special Challenge Grant, YOUR impact will be DOUBLED! Select here or the button below to **FUND THE FIGHT FOR FREEDOM.*** —Mat

Challenge Grant **DOUBLE**
Your Impact

Duane,

Ella didn't want COVID again. The two-dose Moderna regimen was available a few hours away, so she took her first dose in February. Within 30 minutes, her left arm, where she had taken the shot, went numb. In only three hours, her left arm and neck were paralyzed, and her right arm was numb.

"My doctor only took one of my calls saying she was hearing this with too many patients, and I have to just wait it out," Ella says. "I could not move my entire arm down to my fingers, nor my neck in any direction. This was the second time I thought I was going to die."

Death came near, first, because of COVID; second, the Moderna shot. And **the feelings in her**

AUG 12 21 08:55 PM CDT

body got even weirder.

"The sensation in my head and arms was like soda pop bubbles popping and never stopping," she writes. "This lasted for three days."

On and on, unusual symptoms manifested. **Mental issues followed.**

"I couldn't think," she writes. "I couldn't follow a conversation on TV. My head felt like a fish bowl sloshing around."

For a month, she didn't have the strength to stand on one of her legs. When it was time for the second shot, her doctor "demanded, yes," Ella should get the shot. Back to Texas she went.

Help us help people from becoming like Ella. We are receiving emotional calls from people across the country PLEADING FOR HELP!

MAKE MY GIFT TO DEFEND LIBERTY

The second dose left Ella with multiple serious reactions.

"I felt sick for one week. Bed bound," she writes. "My arm was just really painful but functional. The right knee was blue behind it, and I hopped to urgent care, which sent me to the hospital."

Eventually she had no use of her leg. Then her vision was impaired. She sat in the dark because "the light hurt." Ella suffered one symptom after another, all after having the Moderna shots.

"I felt I was dying, and this time I wanted to be allowed to. I made death arrangements just in case."

After going on a "roller coaster ride to hell," she feels "blessed now to be alive and not incapacitated anymore." She said, **"I was not living. I sat or lay there in the dark for three months."**

MAKE MY GIFT TO DEFEND LIBERTY

Are you hearing stories like this from the media? I doubt it.

VAERS reports among the 545,337 total reactions as of July 30, there have been 5,236 heart attacks, 23,354 severe allergic reactions, 7,509 shingles cases, 14,251 permanent disabilities and much more.

If you're pregnant, you should know 1,381 miscarriages have been reported. And with the effort it takes to jump through all the hoops to report these injuries, these reactions are drastically underreported.

NO ONE SHOULD BE FORCED TO GET THESE SHOTS. THIS IS YOUR DECISION AND YOURS ALONE!

"I've been a correctional peace officer for the prison system for 16 years," writes one person seeking help. "I'm four years away from retirement and I absolutely won't take the vaccine so

I'm afraid I might lose my job over this."

Our attorneys have prepared all their careers for such a time as this, but we also need you to come alongside in ongoing prayer and financial support.

Help us **DEFEND FREEDOM TODAY!**

Challenge Grant **DOUBLE**
Your Impact

There's one more thing you can do. Fax governors and Congress. NO MANDATORY COVID SHOTS OR VACCINE PASSPORTS! Select here or the button below.

NO Mandatory Vaccinations

Mat Staver
Founder and Chairman
Liberty Counsel

P.S. **DOUBLE THE IMPACT OF YOUR GIFT** with our Challenge Grant.

P.P.S. **Don't forget to fax state and federal lawmakers to say NO MANDATORY COVID SHOTS OR VACCINE PASSPORTS.**

And **sign our petition.**

Stop! Good gracious, stop with the mandates!! This is an experimental drug, stop forcing it on people!!

Do you hear us? Are you listening? Do you care?

Enough! Last year's heroes should not be fired this year for declining an experimental injection with questionable safety and efficacy!

Thank you for your consideration in this matter.

Stop! This is an EXPERIMENTAL VACCINE and you are forcing people to be lab rats.

Look at the CDC and VAERS websites and see that there are over 11,000 REPORTED DEATHS and THOUSANDS OF LIFE-CHANGING SEVERE ADVERSE REACTIONS.

You threaten loss of employment should a person want to defer taking the EXPERIMENTAL VACCINE until there full FDA approval, a package insert listing ALL INGREDIENTS and ALL ADVERSE REACTIONS, INCLUDING DEATH and the manufacturer's have liability for potential harm that may be caused by these EXPERIMENTAL VACCINES.

This is medical tyranny!

There are many reasons not to mandate "vaccines" for healthcare workers. One of the greatest is they are "experimental". Another is we cannot afford 60% of our healthcare workers to leave the field, leaving no one to care for those who have been infected even after having the jabs. What happened to HIPPA? What happened to "my body my choice"?

Thank you for your consideration! I will be watching this vote.

Mandatory vaccines are illegal and violate the Norumberg code. Public health does not Trump the Constitution of the United States. I will leave my nursing job before I submit to this insanity!!

To the Pima County Board Supervisors:

The concept of a vaccine mandate is anathema to the constitution of the United States, the constitution of Arizona, and the civil and human rights of all people. Further, the concept of an experimental vaccine mandate is a violation of The Nuremberg Code, and all tenets of medical ethics ensconced in US law and practice. History will judge such mandates as crimes against humanity, and those who promote or approve them will be guilty of the same. I will concur with the judgement of history.

Therefore, you are hereby instructed that you shall not approve, endorse, or in any way support or vote in favor of any type or form a vaccine mandate in Pima County.

I urge you to oppose mandatory vaccines for all Healthcare workers. Since when is an authorized for emergency use only therapy made mandatory ? Please stop the politics and let people choose their own health care.

To whom it may concern:

Breaking the law to mandate vaccines or mask children in schools is absolutely unacceptable and these decisions should remain a personal choice for the citizens of Tucson. Public officials have no business making these decisions for citizens at this point for a seasonal virus.

There is no concrete supporting evidence or data to support universal mask wearing to prevent viral spread, especially on children for seven hours/day. There IS data to show that masking children can be harmful.

Mandating anyone to vaccinate with an experimental vaccine is wrong on many levels.

I implore the Pima County BOS to continue to let our citizens make choices that fit their families and respect the law/freedoms.

Respectfully,

Missie Scheffman

Stop the mandate of the corona virus vaccine. American citizens have the right to choose what they put into their bodies. Since the vaccine is not FDA approved and can cause cardiac/respiratory complications (similar to COVID 19 side effects). As an RN working the last 18 months through the pandemic, I prefer to keep my mask on 13 hours a day 3 days a week instead of introducing poison into my body.

It is against Arizona law to mandate the corona virus vaccine. We the people have a choice as American citizens.

To Whom It May Concern,

America is a free country. I demand as an American citizen, as an Arizona citizen, that you DO NOT mandate vaccines for anyone in our state or country! Health decisions are personal and private, and should not be mandated by government! Everyone has the right to make educated decisions pertaining to their own health. It is not the place of government to decide what anyone should or should not put into their bodies. My body, my choice. If people have the right to choose, that right should not be infringed upon with vaccines or any other health decision.

Thank you for standing against this terrible overreach by government!

Sincerely,

Teresa DePoy

CAUTION: This message and sender come from outside Pima County. If you did not expect this message, proceed with caution. Verify the sender's identity before performing any action, such as clicking on a link or opening an attachment.

Dear Supervisors,

I am a PC for Pct 75 and am requesting you table the agenda item for Monday regarding forceful vaccinations of healthcare workers and their staff.

It is unconstitutional, violates HIPPA, violates the Nuremburg Code which require consent, and violates the AZ state law.

Not only are the vaccines still in Emergency Use Authorization phase and have no long term studies, but there are increasingly terrible side effects being documented. Mandatory vaccination will not only put our healthcare workers and their staff at risk, but also endanger the local population if our healthcare workforce are incapacitated as a result of the vaccination. They worked all last year during the worst of the "pandemic" without the vaccine. There are many treatments and prophylactics available that have been proven to work.

Please do not mandate Covid shot mandates for Pima personnel. These mRNA shots have not proven to be safe or even effective. Many thousands of healthy people have died after getting these so-called vaccinations, and huge more numbers have been injured or permanently crippled. We already have effective treatments for Covid, including Ivermectin and hydroxychloroquine; why force an ineffective shot?!

Sincerely,
Johnny Rowland
