Subject: UNLAWFUL MANDATES

CAUTION: This message and sender come from outside Pima County. If you did not expect this message, proceed with caution. Verify the sender's identity before performing any action, such as clicking on a link or opening an attachment.

Pima County Board of Supervisors body -

We, the people of Pima County, demand you cease and desist ALL DISCUSSIONS relating to the mandated mask wearing, vaccine injections and any retribution against those who do not wish to do either one!

On August 10, you voted down the measures to mandate mandatory masks for K12. No further discussion will be tolerated on this subject! You are demanded to table ALL DISCUSSIONS on this matter immediately and permanently!

On August 10, you voted down the measure to mandate all Pima County employees to be vaccinated/injected starting October 1. No further discussion will be tolerated on this subject! You are demanded to table ALL DISCUSSIONS on this matter immediately and permanently!

Now you are looking to FORCEFULLY VACCINATE/INJECT our healthcare workers. You are to TABLE THIS MATTER PERMANENTLY!!!

If you decide to proceed on discussion and implementation of any of these matters, please be advised you are hereby warned of the consequences of your actions! You are violating Governor Ducey's Executive Orders regarding this matter in the state.

There are to be NO MANDATORY VACCINES, NO VACCINE CARDS/PASSPORTS and you have ZERO rights to violate anyone's rights, civilly or medically! We also noticed you refuse to allow any religious exemptions in your proposed mandate, which is also illegal!

Your mandate violates the Arizona State Constitution, Constitution of the United States, Bill of Rights, HIPPA and other civil and discrimination laws. These carry serious federal and local penalties, which you will be tasked to suffer should you proceed with this discussion and vote!

This will no longer be tolerated by the people of this state and Pima County. You are hereby mandated to cease and desist before your actions lead to legal penalties!

Regards,

Fabiola Palazuelos

I am urging you that if you represent anything that the United States of America stands for, I urge you not to force vaccinate our healthcare workers. Many will lose their jobs if this is enforced. Considering these people gave up everything to help us through the COVID-19 pandemic, it would be horrible if we were to lose any one of them over a vaccine, when they have saved countless lives!

Elissa and Tomy Murrey, citizens of Arizona

Thank you to those who voted no and did not break the law by voting yes on school mask mandates. I fully support the prosecution of those that break the law. You can not pick and choose the laws you follow. Also, nobody should ever be forced to get a shot in their body. Ever. This is supposed to be a free country. By instituting the mask mandates on county property, you are showing us that the vaccines still allow people to be infected and spread the disease- so why bother with a mandate? It won't help. Promote healthy living, read true sources and stop following the corrupt CDC- the teachers union has them wrapped around their finger as well as the current president. Share true information and how to stay healthy and make recommendations. NO MANDATES!!!! Stop your government over-reach.

Also, forgot to mention that forced vaccination of a trial vaccine is against many laws including the nuerenberg laws. If guilty, the punishment is death. Choose wisely.....

AG121M0407C1K0F-M JK

Before you mandate a vaccine for staff in your state just know that over 10,000 deaths have been listed in the USA VEARS system. There is also a lawsuit by a whistleblower that another 45,000 Americans have died and been listed in an alternative Vers system and withheld from the public. This would make over 55,000 deaths in America for those who have taken the covid vaccines. In addition over 500,000 citizens have been permanently disabled from this vaccine. there is no way that this vaccine is save and effective. In reality, it's a death sentence for many. Yes many of us have taken it successfully, but there is so much evidence that this vaccine is a murdering machine.

Do your homework and Choose wisely before you make a decision to murder more American Citizens by removing their right to choose. The vaccine is more dangerous than the disease.

As a resident and very concerned citizen of Pima County , I am not only asking but imploring that you vote against all mandates regarding face masks for children and vaccinations or even regular/frequent covid testing for healthcare workers in Pima County.

We are Americans with civil and constitutional rights. We have every right to refuse any medical treatment or procedure that we do not feel comfortable with, especially when it is experimental, full disclosure about ingredients and trials have not been disclosed, and the manufacturers have no liability.

I am a healthcare worker that has worked through this pandemic, without being tested and without a vaccination. I am a healthy person and have not been ill in the last year and a half. I don't feel that the city, the state , or even the federal government should dictate what I inject into my body and punish me for not complying by taking my livelihood away from me, denying me a means to take care of my children and other financial obligations.

We will not comply, the data/science does not support mandating experimental medical treatment for a virus with 99.97% survival rate.

Thank you,

JS Diaz

Dear Pima Co Board of Supervisors

I urge you, please do not mandate Covid vaccinations for Pima Co healthcare providers. We are rapidly learning that the current vaccines are only marginally effective and may, in fact, cause more injury than protection. Any possible compromise of our healthcare system would be disastrous.

Thank you!

Sincerely

Gary Criswell

CAUTION: This message and sender come from outside Pima County. If you did not expect this message, proceed with caution. Verify the sender's identity before performing any action, such as clicking on a link or opening an attachment.

Please reconsider the proposed forcible vaccinations you are considering. Why?

1. This "vaccine" is NOT a vaccine, it is an emergency, experimental injection not yet approved by the FDA.
2. Forced vaccinations violate the consent clause of the Nuremburg Code of 1947. (International law)
3. The "emergency use" designation can only be given when all other treatments are moot, a.k.a. a "last resort".

Please be advised that the use of Ivermectin, Hydroxychloroquine, Vitamin D, Zinc, Chlorine Dioxide and Z-Pack have shown efficacy in treating the early stages of Covid-19 infection. The entire premise of the vaccine is fraudulent and fictitious.

One final point, and perhaps the most important. This is America, and We the People have rights guaranteed to us under the Constitution and the Bill of Rights. Your oath of office includes protecting the rights of your constituents. I submit that you would all do your job and leave the tyrannical medical apartheid practices to the enemies of mankind.

To Whom It May Concern:

It will be a sad and terrible day in Pima County if Covid injections (or passports) are required or forced upon any individual in this state or country!

There are some folks who don't need and/or want to be forced to inject something into their bodies that:

- 1) Is not FDA approved
- 2) Is not effective against preventing the spread of sickness {Read the insert that comes with the shot}
- 3) Has not had any long term studies done to prove efficacy or safety
- 4) Has "off the charts" side effects including death and permanent disability
- 5) Forcing nurses and workers to choose between surrendering their rights to medical privacy OR being able to support/provide for and feed their families. Food and shelter OR a shot?? Is that the decision you want to force upon hard-working Americans?
- 6) There are safe, proven, effective treatments of coronavirus, thereby not needing forced procedures on anybody.

What happened to: My body, my choice? Or is that applicable to *only* what is politically correct?

People have made the CHOICE how to proceed with the best medical research and advice available to them. DO NOT REMOVE THAT CHOICE by forcing people to receive dangerous drugs or be forced to quit. This will most likely further deplete the medical staffing in hospitals.

Any legislation that forces or coerces medical procedures is DANGEROUS, UNETHICAL and an AFFRONT to law-abiding citizens. Just say NO to forced vaccinations or passports!

With regards,
Sandy D'Entremont
Tucson, AZ

AUG 13 21 14:00 PM PCD/K

Unless we put medical freedom into the Constitution, the time will come when medicine will organize an undercover dictatorship. To restrict the art of healing to one class of men, & deny equal privilege to others, will be to constitute the Bastille of medical science.

All such laws are un-American and despotic, & have no place in a Republic. The Constitution of this Republic should make special privilege for medical freedom as well as religious freedom

Hello Pima County Board of Supervisors,

I'm writing to let you yet AGAIN to let you know that you are on a very dangerous and ILLEGAL path with vaccine and mask mandates when the State of Arizona has already made retroactive law regarding these issues. Should you pass these illegal mandates 26 GOP Members have called on Governor Ducey to:

- Withholding federal funding from any school district not complying with state law.
- Authorizing "Empowerment Scholarship Accounts" to be offered to students in non-compliant school districts. These accounts can be used to move tax dollars to another public or charter school.
- Sending a notice to families reminding them that the state has banned mask mandates, notifying them about the scholarship accounts and about alternative schooling options.
- Initiate legal action against any school district defying state law.

Your constituents have already spoken with their outrage displayed prior to your previous meeting regarding the very same issues! Continuing this will do nothing but pour gasoline on an only recently smoldering fire in our county. Our country is not founded on taking away free will - which is EXACTLY the spirit in which you are acting. Medical freedom is the only right path and the only way to heal our community.

If you choose to illegally go against state law that protects our medical freedom, please know that there is a sea of Pima County citizens that are ready to move against you to lawfully hold you accountable along with all school and health administrators for the act of sedition. I advise you to cease and desist immediately.

Warm Regards,

Autumn Cunningham

Totally opposed to this requirement. This drug is still in Stage 3 level of approval. The healthcare workers do not want to be guinea pigs. They are well aware of the dangers of this vaccine. We do not know what will be long-term effects.

The healthcare workers were our celebrated heroes of the pandemic, and now you are forcing them to take a vaccine that they want at this time. Actually it is illegal. (Just listening to a Constitutional attorney this morning to find out more about healthcare workers rights.)

Of course they don't want to lose their jobs. Disgraceful to punish them in this way.. I will do all I can to support the healthcare community.

They will leave their jobs, I would too. And then we will have a real crisis in Pima County. Hope it doesn't come to this point.

I believe it is their choice for their bodies.

Please reconsider your position. Think about the crisis you could create. It will be all on you. And the public will not forget.

Respectfully
Sarah Price

Sarah,

While the Board of Supervisors failed to require vaccines for healthcare workers on Tuesday, we see more and more healthcare workplaces -- on their own -- begin to require vaccination against Covid-19 as a requirement of the terms of their employment.

In a health crisis of this magnitude, requiring vaccines that are proven to be safe and effective, just makes sense. We wish we did not disagree with you on this point.

Very respectfully,

Kylie Walzak (she/her)
Senior Special Staff Assistant
Dr. Matt Heinz, Supervisor, District 2
520-724-6610

Green Valley AZ 85614

I respectfully request that the Board of Supervisors does not pass the mandate in Item 4 in the Agenda.

Why would any person, let alone a healthcare professional, want to take an experimental injection that is not very effective in preventing Covid-19 infections and still results in deaths often of vaccinated individuals. It is the vaccine that is creating the variant strains as it is causing the virus to mutate in order to survive in the human body, that is associated with several deaths and serious disabling side effects, when there are better and safer treatments available for anyone who gets Covid-19 (such as ivermectin, hydroxychloroquine, azithromycin, monoclonal antibodies, clindamycin (often in combinations) that work extremely well in eliminating the virus and saving the patient. Recovering from the virus provides long-lived and robust immunity even in the older population unlike this experimental vaccine. The Delta variant maybe more infectious, but it is less dangerous.

Healthcare professionals know about what I have just stated above so why would or should they be forced to be vaccinated. You will lose good and dedicated personnel who will be difficult to replace, and I for one will not want to be hospitalized in a Banner institution if you follow through on this mandate.

Please feel free to contact me if you need any further clarification.

Hi

I am writing to you requesting you send an urgent message to the Pima County Board members regarding the meeting on 8/16/2021

TABLE THIS MANDATE!

My name is Mandy and I am a nurse practitioner. I have spent my entire nursing career in Tucson. I have been an RN for over 13 years. I want you to know that the community is aware that Matt Heinz wants to require the covid injection for ALL healthcare workers in Pima County. The group of healthcare workers that are against this is only getting bigger by the day. This is a MASSIVE violation of our constitutional rights. As you think about whether to vote for this, please be aware that this growing group of healthcare workers is prepared to WALK away from their jobs. The hospitals are already desperately understaffed and this will only make that worse. Your constituents are the ones who will be affected. The wait times for ER, urgent care and even getting in with their PCPs will only be longer than it is now. This will be detrimental to the healthcare system. The percentage of healthcare workers who have chosen not to take this is already more than the ones who have chosen to take it. We are entering into the busiest time of year with influenza, colds, snowbirds returning and will have scheduled procedures etc, and the healthcare system CANNOT handle losing staff during this time. If you choose to mandate this, the community will know that YOU voted it in and that all of their gaps in healthcare are because of YOU. VOTE AGAINST THIS MANDATE! We are NOT going anywhere. We will NOT back down. Vote NO on this mandate. And covid is NOT spread by healthcare workers. From 3/2020-6/2020, 253 patients were traced that had exposure to covid from healthcare workers and only ONE person contracted covid from that.

Aug 13 21:40:26 PC CLK OF BD

I also wonder how this will affect the revenue for Tucson if you penalize them for not getting this injection for themselves and staff. As a small business owner myself, I know I will go elsewhere.

Thank you

Mandy DeMeritt FNP-C

CAUTION: This message and sender come from outside Pima County. If you did not expect this message, proceed with caution. Verify the sender's identity before performing any action, such as clicking on a link or opening an attachment.

We, the people of Pima County, demand you cease and desist ALL DISCUSSIONS relating to the mandated mask wearing, vaccine injections and any retribution against those who do not wish to so either one!

On August 10, you voted down the measures to mandate mandatory masks for K12. No further discussion will be tolerated on this subject! You are demanded to table ALL DISCUSSIONS on this matter immediately and permanently!

On August 10, you voted down the measure to mandate all Pima County employees to be vaccinated/injected starting October 1. No further discussion will be tolerated on this subject! You are demanded to table ALL DISCUSSIONS on this matter immediately and permanently!

Now you are looking to FORCEFULLY VACCINATE/INJECT our healthcare workers. You are to TABLE THIS MATTER PERMANENTLY!!!

If you decide to proceed on discussion and implementation of any of these matters, please be advised you are hereby warned of the consequences of your actions! You are violating Governor Ducey's Executive Orders regarding this matter in the state. There are to be NO MANDATORY VACCINES, NO VACCINE CARDS/PASSPORTS and you have ZERO rights to violate anyone's rights, civilly or medically! We also noticed you refuse to allow any religious exemptions in your proposed mandate, which is also illegal!

Your mandate violates the Arizona State Constitution, Constitution of the United States, Bill of Rights, HIPPA and other civil and discrimination laws. These carry serious federal and local penalties, which you will be tasked to suffer should you proceed with this discussion and vote!

This will no longer be tolerated by the people of this state and Pima County.

You are hereby mandated to cease and desist before your actions lead to legal penalties!

Regards,
Angelica

Greetings!

This email is to plead with all who hear, to vote NO, nor to put into place a mandate that would require anyone - healthcare workers or county workers - to get the covid-19 injections/shots/ vaccines.

Please - as a proud citizen of The United States of America - the land of the FREE - we should have the freedom to decide to get this shot or not - not be told by the government or government leaders what to do.

Mandating an injection - something so invasive - is along the lines of Nazi Germany - please never forget the history of segregation, experimentation, and DEATH of Nazi Germany, the Holocaust, and WWII.

Please vote NO on any mandates for covid-19 vaccines.

Please, if you will kindly read this so all the members can hear this plea and petition.

Thank you,
Concerned Healthcare worker,
Emily

CAUTION: This message and sender come from outside Pima County. If you did not expect this message, proceed with caution. Verify the sender's identity before performing any action, such as clicking on a link or opening an attachment.

Dear Pima County Public Officials,

I have been a registered nurse in the state of Arizona since 2014. I have worked bedside nursing, holding patients' hands as they passed away. I have worked in the emergency room where I have seen traumas and overdoses come in beyond what the human imagination should ever witness. I have also worked in case management, assisting loved ones transition from the struggles of hospital life to home or hospice. I have worked a total of 13 years in the hospital setting. I know what it's like to work day shift and night shift. I know what it's like to work 12-14 hours until my feet are so numb that I can't feel them any longer. I know what it's like to work through being short staffed, while being under paid, and unappreciated; while doing this for your fellow staff and your patients.

America has a long history of standing up to tyranny and dictatorship. Standing up for freedom. Standing up for what is right. For truth and justice. In 1775 America fought in the Revolutionary War where we fought for freedom against England. Time and time again American men and women have stood together and fought for freedom. World War II, America fought with Britain and Russia against the Communist dictator, Hitler, and Japan. America fought against itself in the civil war for freedom, that all men and women, of all colors would be free.

Today we fight for freedom to decide what gets put into our own bodies. In America we have rights. My father fought for my FREEDOM while serving in the army. My Uncle fought for my rights while fighting in the Navy. My Grandfather fought for freedom while serving in the Navy. My Great Uncle fought for my freedoms and YOURS while serving in World War II. My Great Grandfather fought for Americans and my freedoms while fighting in World War I. We have the bill of rights and the constitution for a reason. We have our freedoms and our freedom of speech from the blood, sweat, and tears of our ancestors before us.

This vaccine is not FDA approved, nor should it be when it has killed over 12,000 according to the government database VAERS. All over the world there are cases of fully vaccinated people dying. In Arizona today there is a rise of COVID cases. There are hundreds of thousands of illegal immigrants being let into this country that are not tested for COVID, masked, or given the COVID vaccine. You should demand the borders be shut down, not demand Americans have their rights ripped from them. The NIH just begun the trial on the use of the COVID vaccine during pregnancy June of this year. I am of childbearing age and would one day like to have children. COVID directly affects the ovaries, it is a likely conclusion that the vaccine would cause a permanent issue, also known as infertility. Many health care workers, such as myself, have already had the virus and fully recovered. There is no need to get a vaccine when studies are showing that the antibodies stay in our system for a life time.

For all of you who do not know how the immune system works, let me explain. The body fights the antigen (or virus) with B and T cells. Those cells are what innately the immune response. Antibodies are formed against the foreign agent (virus). Once the virus is eliminated, the T and B cells create memory cells, so that if a person is re-exposed to the virus, the body can fight it again. That's why I didn't need to get the chickenpox vaccine, because I had chickenpox.

If vaccines become mandated American citizens will be the ones who are hurt. They are the ones you are putting in danger. Not US, YOU. You are the ones to blame, not people who have chosen not to get this shot. We will make that known.

We live in America. Not Communist China. Not Communist Russia. America. The land of the FREE.

Sincerely,
Nurse for Freedom, Nurse for Truth and Justice.
Nurse Chrissy

P.S. Matt Heinz you're going to have to actually get off your back side cause without us, you're now the unit clerk, tech, nurse, and doctor. Deal with it. Oh, and we're running low on PPE so you'll have to reuse your own.

I am not against those who are making the decision to get whatever vaccination they choose to get. What I oppose is the government, corporations, schools or any entity that is mandating their employees, students or anyone to get the vaccination. This is the United States of America and we must continue to have the freedom to make choices for ourselves and have the choice to do so. DO NOT MANDATESTOP THE MANDATE!

All the best,
Barbara

Please consider that every day more information comes out about not only how ineffective the "vaccines" are but also how dangerous they are. The VAERS already has 12000 reported deaths from the initial reaction to the so called vaccine and the FDA is accused of sabotaging the system to under report the number. They are being sued over it. These are just the immediate reactions. More information about the origin of the virus and the vaccines are coming to the surface. It appears that the vaccines are designed to cause harm, sterilize, and shorten lives of those who take it. That is the direction all of this is going. Top medical doctors (Nobel prize winner Luc Montagnier, Dr. Peter McCullough, Dr. Wolfgang Wodarg, Dr. David Martin, former Pfizer VP Michael Yeadon and many others) have already pointed out (but have been promptly censored) that vaccines will cause variants through shedding, that they cause harm through blood clots and other mechanisms and in the case of David Martin, that the people who invented the virus have also come up with the solution and he cites the patents to prove it. Wolfgang Wodarg points out that the protein that the "vaccine" teaches your body to fight is found in organs of the body and in the placenta. Former Pfizer VP Michael Yeadon believes that these vaccines are an extermination tool.

The truth is like a beach ball. You can hold it under water for a while but it has a way of getting loose. When it does, it suddenly pops to the surface. When it does those who tried to impose mandates will find themselves on the wrong side of history and will be swept aside.

I am writing in response to the mandate you are considering for all health care providers to be vaccinated, or else their business can be closed. This is wrong and appears encroach our freedom of choice for the health care we provide, and for our own personal decision of what's best for our future health.

I have been a Naturopathic physician for 29 yrs, with 12 of them here in Tucson. I work out of a small office in my home, and only work 3 days a week with no employees.

I do not believe in vaccines to avoid illness, and I am not uneducated, nor misinformed about this vaccine. It goes against every thing I believe in, and teach my patients about staying healthy. I do not force my opinion on my patients but always support their decision if they choose to get them.

I am self employed in my own business that I have worked hard to grow and maintain, and you have no right to tell me to stop working and leave all of my patients stranded without their physician. I believe there has not been enough thought, discussion and consideration about the ramifications and far reaching damage you are going to cause small business's in Tucson.

This is wrong, unconstitutional and an infringement of my rights and freedom of choice as a citizen of the United States of America.

Respectfully,

Debora Chelson NMD
