Dear Supervisors,

I request that as a part of your meeting this morning you read the attached article by Dr. Justus R. Hope and watch the short 19 minute video by Dr. Peter McCullough who is the MOST Published Doctor in the world in History in his field (Heart and Kidney). Dr. McCullough is an Internist, Cardiologist, and Professor of Medicine at Texas University of Medicine.

Dr. Peter McCullough video as he appeared before Texas Senate:

<https://youtu.be/QAHi3IX3oGM>

Dr. Justus R. Hope Article:

https://www.thedesertreview.com/opinion/letters_to_editor/ivermectin-wins-in-court-again-for-human-rights/article_98d26958-a13a-11eb-a698-37c06f632875.html

This information is just the tip of the iceberg of all the light that is beginning to shine in the communities you represent, relative to Covid, and verifiable, repeatable treatment protocols that work, therefore making ALL EXPERIMENTAL vaccines senseless! There is a large enough body of evidence in clinical trials from around the world as well as practically applied protocols having unparalleled success around the world, that a case can be presented using the standard of "beyond a reasonable doubt" to prove that these inexpensive available treatment protocols are much safer and much more effective than an EXPERIMENTAL vaccine with no HISTORY of long term safety!

All that being said, if your actions continue to ignore the growing volume of data and studies that would at least cause a reasonable critically thinking person to pause and consider at length, one can only assume an agenda other than the health and safety of your constituents. Perhaps this has something to do with the BIG BUSINESS

AUG 16 21 PM 04:56 CC CLK

Covid and the VACCINES have become, with the three vaccine makers already having touted earnings in aggregate of \$80 - \$100 Billion in just 2021, depending on what news source you read.

There is a tidal wave of truth being being unleashed in each of your districts and the information you received via the links provided (and many many more links like it) are being presented and disseminated in mass all over Pima county. Most people, when they are provided ALL the evidence and facts, will be able to judge for themselves "beyond a reasonable doubt" that there are safe, effective treatment protocols for Covid therefore rendering the EXPERIMENTAL Vaccines unnecessary at this point for the VAST majority of people.

How will history judge the decisions you make today? How will your constituents, once they find out the truth.... and they will.

Respectfully Jovan Vercel jr

Jovan Vercel Jr 12220 E. Tanque Verde Rd Tucson AZ phone: [REDACTED]

Dear Supervisors,

Please correct the record of my previous request.

I have added a correction to my previous email and request.

Dr Peter McCullough's affiliation as a professor of medicine was at "Texas A & M University of Medicine" and not "Texas University of Medicine" (which was a typo error).

Apologies.

Thank you.

To Pima County Board of Supervisors:

While vaccine manufacturers are held free from harm you do not have such protection. People's constitutional rights do not come and go with the world's pandemics and you will be followed by countless lawsuits for having trampled on people's constitutional rights and their right to earn a living.

Your legal and financial suffering will reach depths you cannot fathom.

Out of curiosity, if we're going to mandate the covid vaccine, who will be held responsible for reactions? Who will be held responsible side effects that dont present for 5, 10 or even 20 years later? What about the people who die from the vaccine? Where the accountability and what are the consequences?

Department_of_concern	Health Department
Subject_or_Nature_of_Concern	Urgent: Please Read Before Monday Meeting August 15th, 2021 Email Before Monday Meeting! Attention: Please Read Email. We will hold you responsible Pima County Health Department directly for any adverse reactions if you attempt to have our Employers try to mandate this Experimental "SHOT" on Us! It's Our Body Our Choice! Please leave us alone! This is a warning! We will not stop fighting for our FREEDOM. It's not about Red or Blue anymore it's about protecting our Comments God Given Rights! I hope you Pima County Health Board does the right thing and makes us Pima County Healthcare workers proud and gives us the choice to make our own decisions for our body. We know that by not getting this Experimental Shot does not put the lives of others at risk and if you have medical FACTS that differ please explain to us at your meeting what these FACTS are instead of forcing tyrannical demands on us without Facts that back up Science and Health! Clearly, any attempt to force anyone to

AUG 16 21 PM 04:57 PCC/KD ID

take a Covid-19 vaccine is a violation of federal law and the conditions under which the Covid-19 vaccine has been authorized for use. The law is clear, experimental medical treatment cannot be mandated. Businesses or Pima COUNTY Health Department are not shielded from liability with experimental agents. Under the 2005 PREP Act enacted by Congress, pharmaceutical companies that manufacture EUA vaccines are shielded from liability related to injuries and damages caused by their experimental agents. However, any employer, public school, or any other entity or person who mandates experimental vaccines on any human being is not protected from liability for any resulting harm. Which means we would be filing lawsuits against PIMA COUNTY HEALTH DEPARTMENT FOR FORCING OUR EMPLOYER TO MANDATE SUCH TYRANNICAL MEASURES AND HOLD THE PIMA COUNTY HEALTH DEPARTMENT RESPONSIBLE FOR ANY DAMAGES OR SIDE EFFECTS THAT MIGHT CONCUR WITH THESE EXPERIMENTAL VACCINES. WHETHER OR NOT THE FDA APPROVES THESE VACCINES IT SHOULD BE A CHOICE TO THE INDIVIDUAL IT IS "MY BODY MY CHOICE"! WE NEED TO KNOW SOMEONE WILL BE HELD ACCOUNTABLE FOR ANY HARM DONE BY TAKING THIS INJECTION! IF YOU WANT TO ENSURE THAT YOU WILL TAKE RESPONSIBILITY FOR EVERY INDIVIDUAL'S LIFE YOU ARE FORCING TO TAKE THIS INJECTION THEN PLEASE MAKE THAT CLEAR AND APPARENT AT YOUR MEETING ON MONDAY. OTHERWISE LEAVE US ALONE AND LET US DECIDE WHAT IS BEST FOR OUR BODY! WE HAVE DONE OUR RESEARCH AND KNOW THE FACTS AND NUMBERS! STOP TRYING TO CONTROL OUR LIVES. While vaccine manufacturers may be shielded from liability, you PIMA COUNTY HEALTH DEPARTMENT is not protected. You are hereby on notice that if you illegally or irresponsibly mandate EUA medical therapies on PIMA COUNTY HEALTHCARE WORKERS, such as the experimental Covid-19 vaccine candidates, I may have no choice but to take legal action, and you may be personally liable for resulting harm. I urge the Pima County Health Department to comply with the FD&C Act and the terms of the EUA and its accompanying Fact Sheet, and to advise all employees of their right to accept or refuse any Covid-19 vaccine. It is "OUR BODY, OUR CHOICE" Any other course of action is contrary to federal law. Thank you for your time. We know you Pima County Health Board will do what YOU already know is the right thing to do and that is to vote against a vaccine mandate for Healthcare Workers! We will not back down! It is Our Body Our Choice. Please Do the right thing at your Monday Meeting 8/16/21. Sincerely, Kimberly Sublette I have attached below a liability of informed consent when administering Covid 19 Vaccines "Gene therapy" along with a form that could hold you Pima County Health Board responsible for any adverse reactions to us Healthcare workers by mandating our Employers to force this vaccine on us because ultimately you are the ones we would come after! I'm sure your board is familiar with this website along with the forms attached, but this is just a reminder that we will use whatever resources we have to take action if necessary to protect Our Freedom of Choice! <https://americasfrontlinedoctors.org/wp-content/uploads/2021/07/Dear-Vaccinator-Notice-of-Potential-Liability.pdf> <https://americasfrontlinedoctors.org/wp->

Subject: Vaccine Passport

CAUTION: This message and sender come from outside Pima County. If you did not expect this message, proceed with caution. Verify the sender's identity before performing any action, such as clicking on a link or opening an attachment.

I am vehemently opposed to the implementation of Vaccine Passports as it is a slippery slope beginning with extreme government overreach and ending in totalitarian rule. I object to anyone requiring someone to inject an experimental substance into their body in order to regain freedoms that are guaranteed to us as inalienable rights through our constitution. I also take extreme offense to the fact that these experimental "vaccines" that are being pushed down our throats are brought to us by companies who, per the National Childhood Vaccine Injury Act of 1986, cannot be held liable if I am injured or killed by their product.

These vaccines are still in their trials for up to another two years and we have zero long-term safety data on these products. They would no longer be available to use if the Emergency Use Authorization were to be revoked.

As a family who has experienced vaccine injury, I am strongly urging you to move away from this one-size-fits-all approach to an experimental medical procedure. This will damage far more people than it will help in the attempt to fight a virus with a 99% survival rate.

As of a few months ago the government-run site lists 60,000+ adverse reactions in 4 months from Covid vaccines alone. It also lists 3,000+ deaths. Additionally, a study by Harvard Medical School that was funded by the CDC discovered that less than 1% of all adverse events after receiving a vaccination are ever reported. Vaccine passports put people at risk for life-altering effects without the freedom to press charges against the vaccine manufacturers or against the governmental agencies coercing them into this choice.

This tyrannical overreach shouldn't be considered. The Nuremberg Code of 1947 states that "The voluntary consent of the human subject is absolutely essential. This means that the person involved should have legal capacity to give consent; should be so situated as to be able to exercise free power of choice, without the intervention of an elements of force, fraud, deceit, duress, overreaching, or other ulterior form of constraint or coercion." My body is my own, and no one should be able to decide what medical concoctions to inject apart from my own sovereign self.

Respectfully submitted,
Karin Noah, Pima County resident
