I am writing this letter to urgently ask our leaders to stop the pursuit and legal protection for mandating the new COVID -19 vaccine! Is it wrong for people to be apprehensive and cautious of a new intervention? Of course not, it is diligent! No one can accuse such citizens as cold to the changes policies regarding COVID and the disease itself has made on their lives, their work, and the lives of the people they care for. Everyone has been affected.

More mandates ARE NOT THE SOLUTION! Everyone is already scared, well done. Now, remove personal autonomy and consent to an injection they are not comfortable with or lose their source of income? That is coercion! These proposed vaccines are not even FDA approved and state in their information sheets that full informed is required to administration as well as the right to refuse. DO NOT ALLOW ARIZONA COMPANIES TO REQUIRE THEIR EMPLOYEES TO WAIVE THOSE RIGHTS TO FULL AND INFORMED CONSENT AS WELL AS THE RIGHT TO REFUSE by tying their compliance through a mandate with their work! This violates the very foundation of medicine, that people. These are already compliant, productive people who continued to show up despite the risks and now are asking for enough respect to allow them to make their own informed decision despite the risks.

Thank you,

Kristi Heins

You need to vote NO for mandating vaccinations for healthcare workers!

Judy Rich, CEO of TMC said that they are already short staffed and they will have to turn patients away. I know that Tucson's healthcare systems have lost my way too many amazing workers due to online schooling and the stress associated with working in the COVID conditions even when vaccinations were NOT required. The accelerating hostile work environments that are being created are absolutely unnecessary! Privacy and freedoms are being violated. Tucson will lose a significant amount of valuable healthcare professionals with the lack of staffing. The fall out from this ridiculous over reach of power will have a ripple effect into many other industries!
