Board of Supervisors,

Please do not infringe on our fourth Amendment that protects us and allows us medical privacy. I have had COVID-19 and do not need any jabs, my immune system is holding up great. I have quarantined responsibly each time exposed to someone positive. I have been respectful and I have tested multiple times to be sure I'm safe before going out or back to work. I have even stayed home with family when they were sick and I did not catch it from them.

I do not know what is in these vaccines and do not care to be forced to take experimental drugs. I have been diagnosed with other health concerns that HIPPA laws still protect. I work in the medical field and I say NO to mandatory jabs for work qualification. The tyranny of this forced communism upon us is unacceptable. Please stop.

Thank you.

Subject: STOP THE MANDATE!

CAUTION: This message and sender come from outside Pima County. If you did not expect this message, proceed with caution. Verify the sender's identity before performing any action, such as clicking on a link or opening an attachment.

To the board of supervisors that is trying to infringe upon my personal rights and the rights of every other person, enough already! You keep kicking this can down the road in hopes we won't remember. You not only do not have any right to tell me or any healthcare individual what to put in our bodies you are beyond ignorant by not following the actual science. These injections are not mitigating crap. Look at Israel who has one of the highest injection rates, their hospitals have mostly injected people. Funny that you all don't want to recognize that. As a healthcare provider I realize you can only educate someone on what you think they should do, you cannot force them. It's their right to choose what's best for their life no matter the circumstances. You can't force a cancer patient to take chemo, you can't make an alcoholic or drug addict quit, you can't make someone with heart disease eat properly. If you were really concerned about the health of people you would be talking about eating healthier well balanced meals, getting exercise and being outside. So please enough all ready with the self righteous bull crap. You're trying to force an agenda and it isn't working. WE WILL NOT COMPLY! So you might as well vote no on the mandate :)

Joanna
