CAUTION: This message and sender come from outside Pima County. If you did not expect this message, proceed with caution. Verify the sender's identity before performing any action, such as clicking on a link or opening an attachment.

To whom it may concern:

An agency that you supervise has committed thousands of violations of state statute and it must be addressed immediately. The Pima County Department of Health has issued thousands of written directives quarantining students across Pima County unlawfully. It appears that the department has elected to comply with Arizona Administrative Code, which is in direct conflict with Arizona Revised Statute. As you are aware, state statute supersedes codes, policies and guidelines.

Arizona Administrative Code, Section R9-6-303, states, "C. Within 10 calendar days after the issuing of a written order described in subsection (A) or (B), if a local health agency determines that isolation, quarantine, or other control measure requirements **need to continue for more than 10 calendar days after the date of the order, the local health agency shall file a petition for a court order...**"

However, A.R.S. 36-789 reads, "B. **Within ten days after issuing the written directive**, or when any delay in the isolation or quarantine of a person or group of persons will not pose an immediate and serious threat to the public health, **the department or local health authority SHALL file a petition for a court order authorizing the INITIAL** or continued isolation or quarantine of a person or group of persons."

PCDHS has failed to petition for a court order authorizing the quarantine of a single student out of the thousands that they have quarantined. In so doing, they have stripped away not only their right to education, but also their due process. Equally as abhorrent, PCDHS is violating their rights to equal protection of the laws by targeting only students for contact tracing and quarantines.

Additionally, PCDHS is illegally discriminating against unvaccinated students. As they state in their own letter, in bold print, "Regardless of vaccination or quarantine status you child can develop COVID-19..." Both the original letter I personally received because of my son's illegal "quarantine" and the third revised version of the PCDHS order are attached in this email for your review.

Per the PCDHS County Quarantine Guidance, for those that are fully-vaccinated, "no quarantine necessary," even though, as they stated themselves, a vaccinated child can still get COVID-19.

This protocol is a violation of the law as noted by the Governor's office in their letter to Peoria Unified School District and others in Pima County.

SEP 07 21 AM 07:45 PM CLK

The Pima County Department of Health is violating state statute, as well as both the State of Arizona and the United States Constitutions. This cannot be tolerated or permitted to continue. Please let me know how the Pima County Board of Supervisors will address this issue as soon as possible.

Your Child is a COVID-19 Close Contact

August 26, 2021

To the parent/guardian of a student in *Mrs. Savage's 5th grade class at Acacia Elementary*;

The Pima County Health Department (PCHD) requires that individuals who have COVID-19, or who have been exposed to COVID-19 through contact with a COVID-19 case, stay home and away from others. Symptoms of COVID-19 can be mild, and it is possible for individuals without symptoms to spread the highly contagious disease.

Your child has been exposed to COVID-19. The suspected exposure took place on *Wednesday, August 25, 2021*. PCHD and the Arizona Department of Health Services (ADHS) require that **your child stay home and away from others if they are NOT fully vaccinated until one of the following is met:**

Criteria 1

- At least 10 days have passed since they were exposed to COVID-19; AND
- Remain symptom free for that 10-day period.

Criteria 2

- At least 7 days have passed since they were exposed to COVID-19; AND
- Your child tests negative for COVID-19 at least five days after the above date; AND
- Your child has been symptom free for that seven-day period.

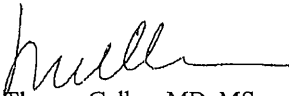

This means staying home until *Sunday, September 5, 2021* under criteria 1 **OR** *Thursday, September 2, 2021* under criteria 2.

If your child is fully vaccinated and symptom free, they do not need to quarantine (stay home). However, it is recommended that individuals receive a COVID-19 test 5 days after exposure and continue to wear a mask.

A person exposed to COVID-19 may develop symptoms after being exposed. The Pima County Health Department may contact you to follow up. PCHD strongly recommends wearing a mask indoors in public regardless of vaccination status.

Visit www.pima.gov/covid19 for more information about COVID-19.

Sincerely,

Theresa Cullen, MD, MS
Pima County Health Department
Public Health Director

2 **Together We Can: Pima County**

Dear Pima County
Board of
Supervisors,

A fundamental quality of Public Health is its preventative nature. Counties are the core providers of health care services and public health programs in local communities. The Pima County Board of Supervisors is responsible for steering public policy and providing direction to the County Manager.

I am asking the Pima County Board of Supervisors to remember their duty to ensure safe communities and protect public health by supporting the County Manager's request to support local school districts who choose to require face coverings.

I implore you to fulfill your duty to protect Public Health!

Together We Can #EndCovid
#WeNotMe

Additional Thoughts: We have four children in the district. Please help to keep them safe. Please.

Travis Carson

Message Subject Pima County Board of Supervisors Meeting on Sept. 7, 2021

Dear Board of Supervisors: Please protect personal liberties: our personal choice whether masks or experimental inoculations are appropriate for us. Our body, our choice. Therefore, No mandates for masks or inoculations. No taxation without representation was fought and won by our ancestors- mine included. I uphold the independence in which our Country was founded and must be maintained: 1. Uphold personal liberties! 2. NO mandates! No Liability, No Trust (pharmaceutical industry has no liability). 3. No decision making without the residents of Pima County being present either in-person, in-writing, by phone, or any other way. We, the residents, must be represented and heard. We ask that you be successful with upholding freedom, the requirements of your constituents, and protect and preserve our independence from the Corporate-State. I am Sovereign of heart, mind, body and spirit.

Thank you, Chair Bronson and Supervisors

My name is Geraldene Larrington and I live in Supervisor Rex Scott's District 1. I am a native of Pima County.

I wish to address the Board on the 4 Covid-related mandates coming up on your agenda. **I AM OPPOSED TO THEM ALL.**

Having watched and listened to the last two live board meetings, I have some observations and questions.

First, to Supervisor Steve Christy, I want to thank you for standing up for our rights to make our own decisions with informed consent. I truly wish that the other Supervisors could realize that you are defending their personal rights for the future as well.

The votes the Board has already taken, and the ones proposed today, feel oppressive and dictatorial—not the American values I was led to expect from elected representatives. You appear to have become feudal lords telling the populace what they can and cannot do.

Supervisor Dr. Heinz, where is the medical debate based on research data that you could be interpreting to help your Board colleagues make decisions? Have you studied the Salk Institute paper, published in Circulation Research, on April 30, 2021, that states it conclusively shows that COVID-19 is a vascular disease, meaning it is in the blood carrying system? They report that they have demonstrated exactly how the SARS-CoV-2 virus damages and attacks the blood carrying system on a cellular level. Quote: "The findings help explain COVID-19's wide variety of seemingly unconnected complications, and could open the door for new research into more effective therapies." Unquote.

How can you not know that people are dying and being maimed by the experimental, untested vaccines you want to mandate to people that do not want them. This is not disinformation: It is from the CDC website page called Vaccine Adverse Event Reporting System (referred to as VAERS) which has already reported over 13,000 deaths from the current vaccinations and over 18,000 permanently injured. If you mandate that any Pima County resident be vaccinated, against their informed consent and they die or become permanently injured, vaccines companies have immunity from liability, but do you?

SEP 07 2021 09:56:13 AM PST

SL

I am truly grateful that none of you have ended up in those statistics. I pray that continues to hold true for you and your loved ones' future health.

Regarding masks: Fear of a tiny virus that can easily pass through and around a mask, even a N95 mask, has you and others abandoning common sense. This fact is based on knowing the size of a virus not on disinformation. I consider mandating masks for all school children to be abusive and may deny a child a classroom education. What should Common Sense tell you?

My request is this: please listen to Supervisor Christy. Vote a strong **"NO"** on these mandates.

Let us wait to gain more insight and knowledge; I am praying that God will give you great wisdom today--do no harm.

The Pima County Health Department (PCHD) requires that individuals who have COVID-19, or who have been exposed to COVID-19 through contact with a COVID-19 case, stay home and away from others. Symptoms of COVID-19 can be mild, and it is possible for individuals without symptoms to spread the highly contagious disease.

Your child has been exposed to COVID-19. The suspected exposure took place on *Wednesday, August 25, 2021*. PCHD and the Arizona Department of Health Services (ADHS) require that **your child stay home and away from others if they are NOT fully vaccinated until one of the following is met:**

Criteria 1

- At least 10 days have passed since they were exposed to COVID-19; AND
- Remain symptom free for that 10-day period.

Criteria 2

- At least 7 days have passed since they were exposed to COVID-19; AND
- Your child tests negative for COVID-19 at least five days after the above date; AND
- Your child has been symptom free for that seven-day period.

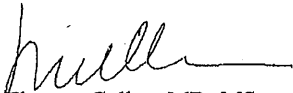

This means staying home until *Sunday, September 5, 2021* under criteria 1 **OR** *Thursday, September 2, 2021* under criteria 2.

If your child is fully vaccinated and symptom free, they do not need to quarantine (stay home). However, it is recommended that individuals receive a COVID-19 test 5 days after exposure and continue to wear a mask.

A person exposed to COVID-19 may develop symptoms after being exposed. The Pima County Health Department may contact you to follow up. PCHD strongly recommends wearing a mask indoors in public regardless of vaccination status.

Visit www.pima.gov/covid19 for more information about COVID-19.

Sincerely,

Theresa Cullen, MD, MS
Pima County Health Department
Public Health Director

To whom it may concern:

Please read into record.

An agency that you supervise has committed thousands of violations of state statute and it must be addressed immediately. The Pima County Department of Health has issued thousands of written directives quarantining students across Pima County unlawfully. It appears that the department has elected to comply with Arizona Administrative Code, which is in direct conflict with Arizona Revised Statute. As you are aware, state statute supersedes codes, policies and guidelines.

Arizona Administrative Code, Section R9-6-303, states, "C. Within 10 calendar days after the issuing of a written order described in subsection (A) or (B), if a local health agency determines that isolation, quarantine, or other control measure requirements **need to continue for more than 10 calendar days after the date of the order, the local health agency shall file a petition for a court order...**"

However, A.R.S. 36-789 reads, "B. **Within ten days after issuing the written directive, or** when any delay in the isolation or quarantine of a person or group of persons will not pose an immediate and serious threat to the public health, **the department or local health authority SHALL file a petition for a court order authorizing the INITIAL or continued isolation or quarantine of a person or group of persons.**"

PCDHS has failed to petition for a court order authorizing the quarantine of a single student out of the thousands that they have quarantined. In so doing, they have stripped away not only their right to education, but also their due process. Equally as abhorrent, PCDHS is violating their rights to equal protection of the laws by targeting only students for contact tracing and quarantines.

Additionally, PCDHS is illegally discriminating against unvaccinated students. As they state in their own letter, in bold print, "Regardless of vaccination or quarantine status you child can develop COVID-19..." Both the original letter I personally received because of my daughter's illegal "quarantine" and the third revised version of the PCDHS order are attached in this email for your review.

Per the PCDHS County Quarantine Guidance, for those that are fully-vaccinated, “no quarantine necessary,” even though, as they stated themselves, a vaccinated child can still get COVID-19.

This protocol is a violation of the law as noted by the Governor’s office in their letter to Peoria Unified School District and others in Pima County.

The Pima County Department of Health is violating state statute, as well as both the State of Arizona and the United States Constitutions. This cannot be tolerated or permitted to continue. Please let me know how the Pima County Board of Supervisors will address this issue as soon as possible.

Dear Parents/Guardian:

Your child has been identified as having been in "close contact" with an individual who has been diagnosed with COVID19. The most recent date of known "close contact" with the COVID19 positive individual took place on or around 8/11/2021. In compliance with AZDHS and CDC guidelines, your child will need to remain at home from school to quarantine until 10 days have passed, with the first day of quarantine being the day AFTER the date of the "close contact". This means your child will need to remain at home through 8/21/2021, with a possible return to campus on 8/22/2021. Prior to your child's return to campus, a member of the Contact Tracing Team will reach out to you to verify whether or not your child meets the conditions to return to campus.

Please note: The Pima County Health Department allows for a "test out of quarantine" option, as long as the child does NOT develop ANY symptoms of COVID19 during the quarantine period. In order to "test out of quarantine", your child must remain asymptomatic and parents must submit **written medical documentation of a valid NEGATIVE COVID19 PCR or antigen test** in which the specimen was collected on or after day 5 of quarantine 8/16/2021. Once these results are reviewed by the Contact Tracing Team, your child will be permitted to return on or after day 7 of quarantine 8/18/2021.

Information about COVID19

COVID19 is a respiratory illness caused by a virus not previously known in humans. People with COVID19 can have a range of symptoms from mild cold-illness to severe pneumonia. Symptoms of COVID19 include fever ($>100.0^{\circ}\text{F}$), cough, shortness of breath, difficulty breathing, chills, sore throat, headache, muscle/body aches, runny nose or congestion, vomiting, diarrhea, and/or a new loss of taste or smell.

- Please monitor your child and anyone who lives in your home for symptoms of COVID19. It takes between 2-14 days for symptoms to show, but you may be contagious before then. You may be contagious even if you never get symptoms.
- If your child develops any symptoms, please let us know as soon as possible. We encourage you/your child to see your healthcare provider and/or get tested with a PCR test. This test determines if you are infected with the virus that causes COVID19. If you are not sure where to go to be tested, please call 2-1-1 for more information. If the test result is positive, please notify the school.

Absences and continuation of learning during COVID19 quarantine

- We do ask that students continue their learning from home during COVID19 quarantine. Please reach out to your child's teacher(s) to obtain any school work. SUSD will be excusing all absences due to COVID19 quarantine unless the state legislature changes their guidance on excusing COVID19 related absences.

If you have additional questions or concerns, we ask that you contact your school health assistant for more information. Additional information on COVID19 can be found at: <https://webcms.pima.gov/>

Thank you for your understanding and cooperation during this challenging time.

Regards,
Jeanine Sarnacki, RN

Dear Clerk of the Board:

Please include my statement for the record. And, I am requesting to speak.

Please confirm receipt, and, instructions for calling in to the BOS meeting.

If the meeting starts at 9 a.m., what time window is most common for the Call to Public? Knowing every meeting is different, please let me know, generally speaking.

Thank you.

Robin Motzer

Dear Board of Supervisors:

Please protect personal liberties: our personal choice whether masks or experimental inoculations are appropriate for us. Our body, our choice.

Therefore, No mandates for masks or inoculations.

I uphold the independence in which our Country was founded and must be maintained and ask you to do the following:

1. Uphold personal liberties!
2. NO mandates! No Liability, No Trust (pharmaceutical industry has no liability).
3. No decision making without the residents of Pima County being present either in-person, in-writing, by phone, or any other way. We, the residents, must be represented and heard. We ask that you be successful with upholding freedom, the requirements of your constituents, and protect and preserve our independence from the Corporate-State.

I am Sovereign of heart, mind, body and spirit.

Hello all,

In talking with the Clerk of the Board there have been only 7 requests for 3 minute speakers for all topics. Only less than 40 minutes left to meet the 5:00 deadline.

However, any written information sent to the Clerk of the Board's email address COB_Mail@pima.gov

will be immediately put into the electronic media that goes to all Supervisors in real time. That means written material can be submitted all week-end even Tuesday although being busy that morning there might be a delay. It's guaranteed to be in the electronic media.

It was a misconception that written emails would be read into the meeting--maybe that was before they had phone-in

The clerk made it clear that having public participation is a courtesy and there is no rule or mandate requiring it.

Subject: Agenda items Sept 7 2021

CAUTION: This message and sender come from outside Pima County. If you did not expect this message, proceed with caution. Verify the sender's identity before performing any action, such as clicking on a link or opening an attachment.

As a resident of Pima county I have grave concerns about several items on the agenda for the Sept 7th meeting. In an effort to not take up too much time I will provide brief statements to each subjects but will gladly have more in depth conversation with supporting documentation if any of you would like to meet up and talk/ with a constituent.

1) Mask / vaccine mandates for schools. I am opposed to this action. The data does not support masking our children, doing so is equivalent to child abuse and an over reach of govt into parental rights. Allowing parents to decide is the only right decision. Given the conflicting data on the safety AND protection longevity covid 19 vaccination sld be a personal choice until It has completed its full testing thru 2025 (and proven safe and effective as a result of that testing)

2) general mask mandate for the county. I am opposed to your interference in an individual deciding if they need to wear a mask. The data does not support such a stringent reaction. To not mandate leaves the decision at personal level this NOT infringing any individual.

3) \$2M for hoteling afghan immigrants. I am supportive of helping anyone who dedicated their live to helping our troops. I have a son who currently serves so I am very sympathetic to the i interpreters and their families but that is NOT just those individuals that made it out of Afghanistan, I wont go into horrific situation or the fact of the chaos allowing so many unvetted individuals in this country BUT instead remind you we have a homeless problem in this county, we have vets that are on the street. We sld be focused on helping our own first and foremost. I am opposed to using any of our hard earned tax dollars to anyone before supporting our vets/ homeless.

4) mandating healthcare workers to vaccinate. Seriously, demanding those who worked unprotected over a year and 1/2 thru this pandemic to take a Vaccination against their will is beyond disgusting. The hypocrisy is astounding..

I have never been one to get active in local politics. I vote and I expect that you will uphold our laws to the truest intent of our constitution (state and federal) . But over the last year I have been appalled at what I am seeing happen in this country, and I am not alone. I am not walking away, I will make it my personal mission to primary every single one of you who thinks you have a right to put your fears above common sense enforcement of our laws and personal freedoms given to us by God and our constitution.

Subject: Public Comment for BOS 09.07.2021 Agenda Items 9, 11, 12, Addendum Items 4, 7, 11

[REDACTED]

Please attach these comments to the citizen input for the September 7, 2021 Board of Supervisors meeting for Agenda Items 9, 11, 12 and Addendum Items 4, 7, 11. Thank you.

To the Supervisors:

Once again, you are discussing and voting on Covid mandates that you have previously discussed and voted down or continued ad nauseam.

Rather than commenting individually on each item, I offer a few reasons why you must vote NO on all of the above mentioned Covid Agenda Items:

1. These are against the law: mask mandates, vaccine mandates, vaccine passports and discrimination based on vaccine status.
2. Medical decisions are to be made by a patient in consultation with **their** personal medical advisors, not by Pima County government.
3. Mandates, incentives, disincentives will continue to degrade morale of employees and exacerbate staffing shortages, particularly among the healthcare workers and first responders we depend upon.
4. If Pima County is not mandating all their own employees to be vaccinated (rather, just new hires and promotions) it is hypocritical (at the very least) to mandate vaccinations for healthcare workers who are not Pima County employees.
5. Last Friday it was reported that Dr. Garcia, Pima County Chief Medical Officer, in reference to Covid cases, said:
 - * "I'm increasingly feeling like we're either plateauing, perhaps even starting to go down."
 - * "most students aren't contracting Covid from classroom exposure."
6. Pima County taxpayers cannot afford to pay for the defense and settlement of legal cases that will arise as a result of these mandates.
7. Listen to your constituents! The vast majority of citizen input posted to the agendas over the past month are **against** all mandates.

Thank you.

J Hughes

Please see that this comment is added to the citizen input for the August 16, 2021 BOS meeting regarding Agenda Item #10, Addendum #1 Items #4,7,8,9.

Thank you.

Supervisor Heinz says:

"INCREDIBLE - YOU PEOPLE!!"

"People watching the Board of Supervisors meeting last week, when my colleagues voted down most of the COVID mitigation efforts I brought forward, noticed my frustration for the lack of action taken to stop the spread of the Delta variant in our community."

I say to Supervisor Heinz -

I was one of those people watching. You may call it frustration, we call it childish overreaction when you didn't get your way. If I were your mother, I would be ashamed and embarrassed by your "taking my marbles and going home" reaction! Is that the way you react when a patient doesn't respond to your treatment as you had hoped? YIKES! Your comments and behavior were certainly less than professional.

You may be a doctor, but you are not the doctor for everyone in Pima County.

Requiring medical procedures for anyone is usurping their rights. They have had the opportunity to be vaccinated and have chosen not to be vaccinated. What about My Body, My Choice? Or does that only apply to abortion, when only one of the involved bodies gets to make the choice, and the other one gets murdered?

We cannot risk losing healthcare workers and first responders due to an illegal mandate. You are making the heroes into the villains! By driving these dedicated public servants away, you are putting all of us in Pima County in danger when there are not enough providers to render aid and care. You said you took an oath to do no harm, so please reflect on that before voting and doing harm to citizens of Pima County!

Disincentives for people who do not get vaccinated are only going to result in more disruption, understaffing and increased morale issues. I have spoken with current TMC employees as well as area firefighters and police who disagree with the mandated vaccines. Some of them have natural immunity from being on the front lines, at least one of them is planning to file for a religious exemption. Do you also get to play God in deciding whether that employee's religious belief is a "sincerely held religious belief?" Who sets that criteria? A religious belief is between the individual and their God. You and government have no status in that relationship and have no way of judging the sincerity, no right to judge.

Stop the overreach! Vote NO on all COVID mandates - no vaccine mandates, no masks mandates in schools.

Pima County Legally Registered Voter
