***Title:**

Precinct Consolidations

***Introduction/Background:**

Per A.R.S. §16-411(A), the Board of Supervisors shall establish a convenient number of election precincts in the county and define the boundaries of the precincts on or before October 1 of each year preceding the year of a general election.

***Discussion:**

After reviewing the number of voters who cast a ballot at the polls during the 2020 general election, and taking into consideration the ever-increasing number of voters on the Early Voting List, the Elections Department is proposing a reduction in the number of precincts in Pima County. In an effort to improve the efficiency of administering the election while still accommodating voters who wish to vote at the polls, the Elections Department is proposing to consolidate the current 249 precincts into 207 precincts. In addition, the Elections Department is also proposing a small number of precinct line adjustments in order to prevent precinct lines from splitting individual properties.

A map showing the proposed changes and consolidations is available on the main page of the Elections website under the "Updated Information" heading, and at the following link:

https://webcms.pima.gov/UserFiles/Servers/Server_6/File/Government/elections/Election%20Results%20and%20Information/voter_precinct_changes.pdf

In an effort to vet the proposed changes prior to the Board's consideration, the Elections Department reached out to the four political parties, the Tucson City Clerk, the Pascua Yacqui Tribe, Chicanos Por La Causa, and the Pima County Election Integrity Committee.

***Conclusion:**

If the proposed precinct consolidations are approved, the total number of precincts in Pima County would decrease from 249 to 207. The Board would be in compliance with A.R.S. §16-411(A).

***Recommendation:**

The Elections Department recommends approval of the precinct consolidations and precinct line changes.

***Fiscal Impact:**

The proposed precinct consolidations should save approximately \$224,000 in 2022 compared to maintaining the current number of precincts.

2021 Precinct Line Adjustments

The Elections Department has identified multiple areas where precinct lines cut through individual parcels. Often this occurs when a subdivision is built after precinct lines have been established. To the extent possible, the Elections Department is trying to ensure that no individual properties are split by a precinct line. These changes are in addition to the list of proposed combined precincts. We propose adjusting the lines between the following precincts:
