Subject: ReDistricting

This comment is requested to be read into RECORD at your next Pima County Board of Supervisors Meeting

I ask the Board to NOT disenfranchise Pima County voters by increasing the size of voting Precincts. Elections in the United States were purposely structured to be decentralized. Pima County needs to have smaller Precincts (<1000) not larger to ensure our elections are local, accessible, and accountable.

Sincerely,

Janet Neustedter

Subject: Precincts restructuring

[REDACTED]

Let it be known to the government of Puma county that it is not in the interest of pima county voters for you to make restructuring of smaller precinct into larger ones you are oblivious to the process of voter integrity and of course you have motive in f ch acting an election again stop this maleficence and do what's right for all voters in Pima county!!!
