Following is my comment for the BOS meeting 10-05-2021

## **ADDENDUM 1 ITEM #3 K-12 Mask Mandates**

Again the K-12 Mask Mandate appears on your agenda. Interesting that you bring up the same issue that has appeared in many other agendas with numerous comments from the Pima County residents but you don't bring those comments forward. Follow the science, masks don't work as suggested. Peace? Who has peace from your mandates. The public has made it clear they want freedom to choose a mask or not for their children. Parents have rights to raise their minor children and make their medical decisions. The Pima County government needs to step back from mandates. If you continue along this path I only hope parents will create a coalition, recall you or file a lawsuit against you or withdraw their children from the Pima County Schools and go elsewhere for their childrens' education -- homeschool, charter, private. There are other choices than the government controlled public education system. Vote NO against this mandate.

### Addendum 1 - Item #3

- Can't believe this is back on the Agenda. Parents are irate and so am I. They are now forming groups to combat these crazy mandates. If necessary they will take legal action against this overreach of authority. Many will find other ways to educate there children. I would.
- Masks are not effective in preventing viruses. I early on I purchased a box from Walgreens. Read the box information. It states right on the box "not effective to prevent disease". I have done much research and found that viruses are so minute that the pass through almost all masks. **Why would you mandate that children wear masks??????** Socially difficult also for our kids!
- **Stop this overreach of authority now. Let parents make their personal choice for their children.**
- **VOTE NO AGAINST THIS MANDATE!!!!!!**

Please include the following comment in the 10/5/21 Board of Supervisors minutes.  
ADDENDUM 1 ITEM #3 K-12 Mask Mandates

It appears you are NOT factoring in the science on this K-12 Mask Mandate. Masking to slow the spread of covid is not effective. Relatively few cases and even fewer deaths occur in school children. The mental health of these minors is at stake. Parents, not the County Board of Supervisors, have the responsibility to raise their minor children and make their medical decisions. Vote NO against this mandate.

Arizona Revised statutes grant powers to this body in Title 11. No where is the power given for you to be able to force school districts to implement a mask mandate. Arizona Revised statutes grant powers to the school districts and boards in Title 15. No where is the power given to force staff and students to participate in an experimental medical experiment known as the mask mandate. The Arizona Revised statutes in Title 1 acknowledge the God-given rights of parents to be the sole authority in their kids' lives when it comes to healthcare decisions. Further in Title 1 it explicitly states that governmental agencies and schools are prohibited from taking actions that undermine parental rights to their kids' healthcare. It is highly inappropriate and unlawful for the Pima County Board of Supervisors to even be engaging in this conversation and will be responded to accordingly by the citizens of Pima County.

The population of Pima County is about 1,068,730 people. Pima County Health Department statistics state that 433 people under the age of 54 have died from Covid19. We all know those numbers are inflated because many of those deaths were people who died WITH covid and not FROM covid. Even if we use that number of 433 deaths the likelihood of any student or staff member dying from Covid18 is statistically 0%. The trends are the same worldwide for areas with lockdowns and mask mandates as places that have neither. There is no covid 19 related emergency in Pima County by any stretch of the imagination. Certainly not one sufficient to justify the unlawful activities this Board is engaging in and we respectfully demand that you cease and desist any further actions to usurp the parental power to provide for their kid's welfare.

Thank you for your attention

ICT 0421#0957FC CLK of ID De

If there is one thing we have learned over this past year, it is this: MASKS don't work, obviously. Otherwise we would be done with this already. The two week flatten the curve ended a long time ago. We have a 99.9% survival rate on this cold. And we ALL know how terrible wearing a mask is and the damage it is causing our children. The lack of oxygen to the brain, the heat rash on the face and breaking out from the sweating. The stink of wearing a mask all day. Let the parents decide what is best for their children. Parents are pulling their children from the school's because there is no longer a choice. Teachers, staff and other children are bullying students. Come on don't hurt our children anymore than they already have over this whole thing. Let them be kids. I urge you to not mask OUR children anymore.

Please allow schools and school districts to make their own decisions on masking students. Not every school and every district is it needed. Do not do an entire mask mandate again, as these schools will lose mass funding. Many parents are planning on pulling their children out if masks are implemented again. The last thing our schools need is less funding. Please!
