CALL TO THE PUBLIC COMMENTS FOR ADDENDUM ITEMS #3 & #4

Agenda Addendum Item #3 K-12 Mask Mandate & Item #4 Vaccine Mandates

It's time to stop re-visiting the mask mandate at every board meeting. Pima County residents are free to mask if they so desire, to force masking on anyone including children is wrong. I'm opposed to the mask mandate and mandatory vaccines for K-12 being pushed onto the students by the school boards, Pima County Board of Supervisors, and the Pima County Health Department. Considering masks are a violation of our parental rights under ARS 1-601 and 1-602.

In addition, you are in violation of ARS 8-201: This establishes the legal definition of "abuse" in state law.

"Abuse" means the infliction or allowing of physical injury, IMPAIRMENT OF BODILY FUNCTION or disfigurement or the infliction of or allowing another person to CAUSE SERIOUS EMOTIONAL DAMAGE as evidenced by severe anxiety, depression, withdrawal or untoward aggressive behavior and which emotional damage is diagnosed by a medical doctor or psychologist and is caused by the acts or omissions of an individual who has the care, custody and control of a child.

School districts across Arizona are being permitted to violate state statute and abuse our children with impunity.

Children mental health should be considered. Stop following the money and follow the science of natural immunity and freedom of choice!

Vaccine Mandates will cause a shortage in employees and services. Employees that have natural immunity and religious/medical exemptions should be honored. It is not the duty of Government to force an employee to accept a mandated job. Those that wish to receive an injection for a vaccine are able and the vaccinated do not need to be protected from unvaccinated. You are not following science, you are following the money as you are receiving funding from COVID relief. You no longer have the ability to govern fairly for the people and have lost all credibility on the COVID issue.

I'm so sorry you feel threatened by our children enough to muzzle them in school.. Every year for all my 65 years I have been exposed to germs out in public. Sometimes I get sick, sometimes not. I haven't gotten Covid yet. If I do I will let it run its course and seek medical attention if need be. These poor children will have to breathe through masks all day at school. They will touch them continually and sneeze and blow snot into them. They will get them dirty outside. They will incubate their own germs and inhale them and get sick. Wearing these masks for them is like picking food or gum off the floor and sticking it in their mouths to eat. It's crazy the fear of adults is jeopardizing the health and welfare of our children, our future. The adults in this present time have no regard for any future let alone that of our children. Please don't ruin their lives by muzzling them. Get another job away from children if you are so fearful of them, please.

FOR THE RECORD:

PLEASE END THE TORTURE FOR OUR CHILDREN.

YOU ARE NOT CREATING GOOD KARMA FOR YOURSELF BY DOING THIS.

NO MASK MANDATES FOR SCHOOL CHILDREN.

ENOUGH IS ENOUGH.

FIND SOMETHING TO DO WITH YOUR LIFE THAT MAKES A REAL DIFFERENCE.

Supervisors,

I wanted to quickly express thoughts with you as you consider a vote to mandate masks in K-12 schools. I have 4 children in the Vail School District, a fantastic district that opted to drop most all mitigation efforts this school year. They quickly experienced multiple outbreaks and the highest infection rate in the State.

Three of my children have asthma, and due to the lack of proven mitigation in schools I have not been able to send them for in-person learning. The argument is there is an option for everyone, those that are uncomfortable with not having masks can take advantage of alternative learning.

This isn't a solution, I have a child with learning delays who is failing. We have reached out to the District, the Principal and of course the teacher. Online instruction isn't working for him, he needs to be in the classroom but can't until we have the proper protection, what is proven to work, in place to protect himself and siblings who are high risk and without access to vaccines.

I appreciate you listening, and thoughtful consideration as you discuss the issue.

Mark
