The following are my comments for the Board of Supervisors Meeting 11-16-2021

## **Addendum #15 HEALTH Literacy Connects CD HD-22-125 \$300,080.00/2 years**

This is an interesting task to develop and promote public interventions for COVID-19 health and vaccination information targeting minority, low-level English literacy individuals. Doesn't this just ring a little of racism and manipulation by Pima County? Of course you are probably also planning to provide a wide array of information to convince them the vaccination is a solution to their non-existent COVID. In the name of transparency in government you should also provide all the associated science behind side effects and problems with the COVID-19 vaccinations and their boosters as a companion to encouraging more residents to take the experimental vaccine. **Vote NO**

**Addendum #15 Health Literacy**

**VOTE NO.** This is actually getting depressing. All of the residents of Pima County should have the correct information from both sides to make the evaluation of what is right for them. Spend no money unless you will provide **all the information pros and cons**. By the way you forgot transgenders, Asians, Eskimos, and little old Danish ladies. Discussed with you! Enough is enough!!!

**VOTE NO!!!!!!!!!!!!!!**
