Board of Supervisors:

Special Meeting Supplemental Materials:

WHEREAS, residents in master-metered communities are not considered direct utility customers and therefore lack access to low-income assistance programs, consumer protections, and transparent billing, creating inequitable barriers to essential services for vulnerable households;

BE IT FURTHER RESOLVED that the Board supports policies and regulatory changes that ensure residents of master-metered communities have equitable access to low-income utility assistance programs and consumer protections comparable to those afforded to direct utility customers, including mechanisms for direct eligibility or required pass-through of benefits;
