Following are my comments to the Board of Supervisors for the 5-21-24 Meeting

Agenda Item #61 ILLEGALS USHomeland Security & FEMA FY2024 \$21,827,581/2 yr (GTAW 24-152)
Grant funds not yet received by PIMA. Provide ILLEGALS with more Federal funding for a continuance of ongoing NGOs with housing, food, transportation. You consider it humanitarian and worry about street releases. Maybe that would be a problem but haven't even tried yet to support closing the border and returning previous funding that did not meet spending dates. If your GMI employees were not so busy with all the unending Federal paperwork to support illegals maybe they would have time to work toward finding support to close borders or more direct support for the homeless and fentanyl issues. **VOTE NO**

God Bless America

Stop accepting federal gov't funding to move people into the US. Tucson voters do not want to be a sanctuary city. We are tired of the neglect to our basic safety. It is time to make the taxpayer a priority. Hire more officers so they can do their jobs and reduce human smuggling and intercept drugs. Nationwide in March, fentanyl seizures increased by **16.1%** compared to February and heroin seizures by **19.6%**. To date in FY 2024 through the end of March, CBP has seized 10,026 pounds of fentanyl.

Somebody benefits from federal dollars to bring migrants into Tucson, but the taxpayers pay and pay for drug addiction, crime, blight, and medical care--for migrants and for everybody who catches tb from people admitted without screening.

The federal dollars vanish--who knows where?--and eventually run out. But the problems remain.
