I am Gail Ault, resident of Pima County for several decades (phone [REDACTED]) and I have the following comments to the Board of Supervisors meeting regarding budget issues. Please add the following comments to the Tuesday, May 21, 2024 Board of Supervisors' agenda.

AGENDA ITEM 15: ADOPTION OF TENTATIVE COUNTY BUDGET

Regarding the current Pima County budget which will result in increased property taxes: Assessors and tax collectors don't determine or increase the tax bill. The budget created by county employees and approved by our elected officials causes an increase in property taxes. So the problem is not high property taxes, that's the result. The problem is really an out-of-control, poorly managed, unfocused system. As supervisors you are tasked with doing what is best for county residents. That should be foremost in your minds - not some nice-to-have agenda that fits your narrative. This is a time for belt-tightening and I see none of it happening (except in individual households). Please think about county residents as you vote and make sure your actions reflect what is best for us.

Thank you.
