"Dear Supervisors;

This is unexceptable. A small increase may be reasonable but to go from \$40.00 to \$100.00 for each of these court required services is egregious. AI is supposed to help contain costs and this fee is called Automation and Technology. The county has spent billions of dollars on tech. to save money, so start sharing the savings. If all that tech. is not saving us money then you have wasted funds and someone should answer for that. Charging this fee increase for things like; name change, garnishments, civil traffic, divorce, domestic violence, guardianship, seem very punitive. I urge you to vote NO on item 23."
